

Harmanjot Kaur

Front-End Developer

I'm a budding Front-End Developer excited to embark my journey in web development. I have a strong grasp of HTML, CSS and JavaScript along with libraries like ReactJS and frameworks like Bootstrap and MaterialUI. I'm passionate about crafting attractive user interfaces while constantly expanding my tech knowledge.

PROJECTS

EduCrafter (09/2023 - 10/2023) [🔗](#)

- "Faculty Management System" is a web-based application designed to streamline faculty-related tasks. Users can effortlessly manage faculty information, assign lectures and groups, provide ratings or reviews and handle administrative functions. Admin can efficiently manage lectures and view them weekly, monthly and yearly.
- Technology Stack: HTML, CSS, JavaScript, React, MaterialUI, Tailwind, Formik, Recharts, Git

Task Manager (08/2023 - 09/2023) [🔗](#)

- Web-based "Task Manager Application" where users can perform CRUD operations. The app will allow users to organize their tasks, set due dates, mark tasks as completed, categorize tasks and perform searching (including text as well as voice search) and filtering based on category. The calendar view offers a visual representation of daily schedules and important dates.
- Technology Stack: HTML, CSS, JavaScript, Git

H4 Schools (07/2023 - 08/2023) [🔗](#)

- "Content Management System" allows users to access an extensive library of tutorials, examples, and resources for HTML, CSS, JS and more. It empowers developers and learners to explore user-friendly interface, advanced filtering capabilities and responsive design in this CMS project.
- Technology Stack: HTML, CSS, JavaScript, ReactBootstrap, Git

WORK EXPERIENCE

Web Developer Internship

CodeClause

08/2023 - 09/2023

Remote

URL Shortener

- Created a Responsive URL Shortener Application using HTML, CSS, JavaScript and API with attractive UI. [🔗](#)
